## ABOUT ME

---

I'm a software developer with a Bachelor's degree in Computer Science from Al-Azhar University of Gaza. I'm passionate about building intelligent systems and developing effective technical solutions. I have practical experience in developing mobile applications and back-end systems, with a deep understanding of software engineering and code organization.

I possess strong skills in requirements analysis, architectural design, and state management, and I always strive to provide a comprehensive and practical user experience. I keep up with the latest technologies and strive to learn new things, with a particular passion for building truly impactful and scalable applications. I work as a team and believe that every challenge is an opportunity for growth and development. I am currently pursuing a Master's degree in Cybersecurity at Qassim University.

## EDUCATION

---

### [Al-Azhar University](#) | **BSc Computer Science** | [2020 – 2024](#)

I earned a Bachelor's degree in Computer Science from Al-Azhar University in Gaza, where I studied basic and advanced courses in programming, data structures, databases, software engineering, operating systems, and networks. Through these courses, I developed my skills in logical thinking, problem analysis, and teamwork through projects and practical training.

My graduation project was a: Puzzle Game, developed to provide an interactive experience based on logic and focus, using software tools and techniques relevant to the job market.

### [Qassim University](#) | **MSc Cybersecurity** | [2026](#)

## EXPERIENCE

---

### [GDSC Suez Canal University](#) | **Intern Flutter Developer** | **Training** | **Remotely** | [Mar 2023 – Jul 2023](#)

I developed my skills in advanced Flutter concepts such as state management, API integration, and project structure organization.

### [Link Company](#) | **Intern Flutter Developer** | **Internship** | **Hybrid** | [Jun 2023 – Aug 2023](#)

I worked within the company in a team environment, participating in the development of real-world tasks that enhanced my practical and professional experience.

### [Focal Point Company](#) | **Flutter Developer** | **Full-time** | **Remotely** | [Sep 2024 – March 2025](#)

I held a full-time job and worked on company applications that included calling and messaging features, which gained me advanced experience. The apps that I developed the calls and chats features for are: [Nikah](#), and [Jiras](#).

### [GRAVIXA Company](#) | **Software Developer** | **Tasks-Based** | **Flexible** | [July 2024 – Currently](#)

I worked as a Freelance Software Developer, handling maintenance and feature development for [Labieh](#), and [SeaTrip](#).

### [FAE Holdings Company](#) | **Mobile Apps Developer** | **Flexible** | **Remote** | [Sep 2025 – Currently](#)

I'm working on developing the [Prime App](#), an Edutainment and Mentorship Platform.

### [Suiiz App](#) | **Mobile Apps Developer – Flutter** | **Full-time** | **Hybrid** | [Dec 2025 – March 2026](#)

Contributed to the Suiiz dashboard app on-site, then transitioned to a 1-month remote engagement before completing the contract.

## SKILLS

---

- **Programming Languages:** Java, Python, Dart, PHP, JS, Swift.
- **Frameworks:** Flutter, Java Android, Kotlin Android, Laravel.
- **Databases:** MySQL, NoSQL, Firebase, Supabase, SQLite, Hive, Shared Preferences, HydratedBloc.
- **Flutter Skills:** State managements: (BLoC, Riverpod, GetX), Real Time Voice Video Calls: (GetStream, Zego, Agora), Payments service: (Stripe), Socket.io, WebSocket, WebRTC, APIs: (RestAPI, GraphQL).
- **Soft Skills:** Communication skills, Time Management, Adaptability, Teamwork, Problem-solving skills, Attention to details, Working under stress.
