## ABOUT ME

I'm a software developer with a Bachelor's degree in Computer Science from Al-Azhar University. I'm passionate about building intelligent systems and developing effective technical solutions. I have practical experience in developing mobile applications and back-end systems, with a deep understanding of software engineering and code organization.

I possess strong skills in requirements analysis, architectural design, and state management, and I always strive to provide a comprehensive and practical user experience. I keep up with the latest technologies and strive to learn new things, with a particular passion for building truly impactful and scalable applications. I work as a team and believe that every challenge is an opportunity for growth and development.

## EDUCATION

**Al-Azhar University | Computer Science "CS" - Information Technology "IT" | 2020 – 2024**

I earned a Bachelor's degree in Computer Science from Al-Azhar University of Gaza, where I studied basic and advanced courses in programming, data structures, databases, software engineering, operating systems, and networks. Through these courses, I developed my skills in logical thinking, problem analysis, and teamwork through projects and practical training.

My graduation project was a puzzle game, developed to provide an interactive experience based on logic and focus, using software tools and techniques relevant to the job market.

## QUALIFICATION

**ATA | Flutter Developer | Training | Remotely | Sep 2021 – Jan 2022**

At the beginning of my Flutter journey, I learned the basics and took my first practical steps in developing interfaces and handling state.

**GDSC Suez Canal Univ | Intern Flutter Developer | Training | Remotely | Mar 2023 – Jul 2023**

I developed my skills in advanced Flutter concepts such as state management, API integration, and project structure organization.

**Link Company | Intern Flutter Developer | Internship | On-side | Jun 2023 – Aug 2023**

I worked within the company in a team environment, participating in the development of real-world tasks that enhanced my practical and professional experience.

**Focal Point Company | Jr. Flutter Developer | Full-time | Remotely | Sep 2024 – March 2025**

I held a full-time job and worked on company applications that included calling and messaging features, which gained me advanced experience, the apps that I developed the calls and chats features for the company are: Nikah, and Jiras.

## SKILLS:

- **Programming Languages:** Java, Python, Dart, PHP, JS(Good Knowledge), Swift(Good Knowledge).
- **Frameworks:** Flutter, Java Android(Good Knowledge), Kotlin Android(Good Knowledge), Laravel(Good Knowledge).
- **Databases:** MySQL, NoSQL, Hive, Firebase, SQLite, Shared Preferences.
- **Flutter Skills:** State managements: (Cubit, and BLoC, Riverpood, GetX), RT Voice-Video Calls serviecs: (GetStream, Zego, Agora), Payments service: (Stripe "Good Knowledge"), Socket.io, APIs: (RestAPI, GraphQL "Good Knowledge"), MVVM, MVC.
- **Soft Skills:** Communication skills, Time Management (using Notion), Adaptability, Teamwork, Problem-solving skills, Attention to details, Working under stress.
- **Languages:** Arabic "Native language", English "B1".
