ABOUT ME

I'm a Passionate mobile apps developer using flutter in Alexandria, leveraging expertise cultivated through self-directed learning on platforms like Udemy and YouTube. I'm ready to working to the fullest of my abilities and capabilities. I'm very interested in constantly learning everything new and developing myself. I have many projects in several fields that I have learned. I have high abilities to solve problems and create solutions to solve application problems. I can create a complete app that follows the standards of memory, speed, strength, Networking, & matching the design of UI UX, committed to crafting elegant, user-centric solutions and continuously expanding skills in mobile app development.
